Dear stakeholders,

Thank you again for a very productive and informative meeting last week. The DPR staff was very intrigued by all comments and many of the common themes that were heard during the round-table discussions and from the members of the public that attended and spoke as well. Here are some updates and next steps:

- The meeting scheduled for next week on **3/12 at Bogey's will be postponed**. The design team has asked for additional time to go through all of the comments from last week's meeting and adequately prepare a summary and presentation for the next stakeholder meeting.
- The next meeting is being rescheduled for **Saturday, March 22 at 10 a.m. at the Denver Zoo**. We will send out another update with an exact location at the zoo and how to gain entry that morning. We will make arrangements with the zoo to ensure that anyone who wants to attend the meeting will be able to gain entry and access the room without paying admission. Revised designs/concepts will not be presented at this meeting. For your planning purposes, the meeting will last approximately 2.5 hours, ending at 12:30 p.m. Food will be served at this meeting.
- In addition to the next meeting, the design team feels that it will be necessary to have at least one additional stakeholder meeting in April. At that meeting, it is their hope to present revised designs/concepts for discussion.
- Later this week – by Thursday – we will send a re-cap of the list meeting (on 2/26) and a write-up of all the notes taken during that discussion. In addition to that email, please be on the lookout for another email with the agenda and additional instructions for the meeting at the zoo on 3/22. That email will be sent out by the 18th.

Again, thank you for your commitment of time and input into these meetings as we continue to evaluate options related to the City Loop project.

Regards,
DPR Leadership team and City Loop design team
